Driver Drowsiness Project — Required PIP Install Commands (Sequential)

Use these commands in VS Code Terminal or PowerShell:

1. Upgrade pip:

```
pip install --upgrade pip
```

2. Install NumPy:

```
pip install numpy
```

3. Install OpenCV:

```
pip install opencv-python
```

4. Install imutils:

```
pip install imutils
```

5. Install CMake:

```
pip install cmake
```

6. Install dlib (Python 3.13 wheel):

```
pip install "https://github.com/omwaman1/dlib/releases/download/dlib/dlib-19.24.99-cp313-cp313-win_amd64.whl"
```

7. (Optional) Install scipy:

```
pip install scipy
```

8. (Optional) Install face_recognition_models:

```
pip install face_recognition_models
```

Verification:

```
python -c "import cv2, dlib, imutils, numpy; print('All good!')"
```
